Reading files → Count the numbers

Medium ⏱ 1 minute ?

There is a [file](#) that contains a sequence of words and numbers.

Download it and write a Kotlin program that counts only numbers in this file.

Enter the result.

Report a typo

HINT by  amrta faruqi

count the number of lines with a string containing numbers

Was this hint helpful?  Yes  No Report

↙ Enter a number

9

✓ Correct.

Great job, keep at it!
